All BANAIR systems are designed to adapt to suit your changing mission.

LIFETIME WARRANTY

Protecting your investment with our stamp of quality

REPAIRABLE

Impact damage, dents & scrapes can all be repaired on 100% of BANAIR equipment.

CARGO CUBER

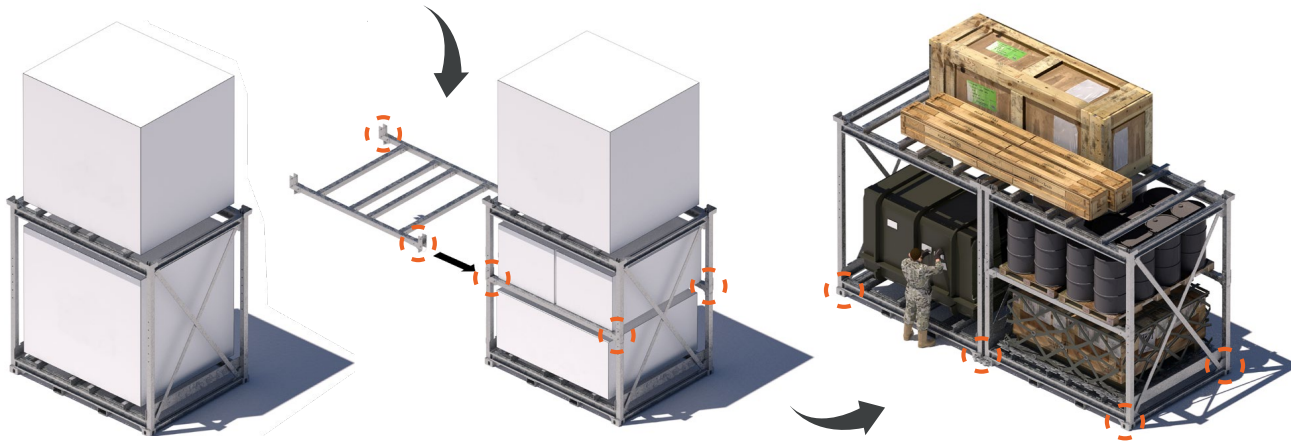

Designed for:
 - 463L (ALOC) / ISU containers
 - Any load upto 120"x93"x100.5"(WxDxH)

INTERNAL USEABLE
 120in (W) X 93in (D) X 100.5in (H)

EXTERNAL
 129.125in (W) X 102in (D) X 126.75in (H)

Top supports allows storage of **two loads** to be stored in one cargo cuber. Suitable for use with standard all-terrain forklifts.

Internal Shelf can be fitted at three different heights (adjustable at 6 inches) to allow for crates, cargo, pallets, boxes etc.

Longer items can be stored along multiple cubers that are linked together by **ISO corner castors on bottom corners**

Custom steel lugs engage with the **four bottom ISO corner castings**. This allows stacking without the need of fixings / additional hardware

LARGE SCALE STORAGE STRUCTURES

ISO Corner Castings on all for bottom corners allow the cuber to be assembled into **larger structures**, facilitating **rapid erection** yard storage solutions for **flight line or aerial port environments**.

Cubers can be linked back-to-back and side-to-side at the bottom to allow **exceptionally rigid and durable structures** to be created simply and without the need necessarily for other site preparation. All they require is a level firm base from which complete storage structures can be **assembled, quickly, and removed/relocated even quicker**.

CUSTOM STEEL LUGS ENGAGE WITH THE FOUR BOTTOM ISO CORNER CASTINGS SO NO NEED FOR ADDITIONAL HARDWARE TO STACK CUBERS UP TO 3 HIGH

OPTIONAL FABRIC COVER (BERRY COMPLIANT)

BANAIR movable stair kits allow instant accessibility for all loads even when stacked 2 high

CHANGE LAYOUTS ON THE FLY

EASILY RECONFIGURE WAREHOUSE & YARD LAYOUTS

SELECTIVE STORAGE

ISU90 / 463L Pallets / Tricons

CUBER works as well with bulk cargo such as wooden or steel crates or palletized goods

BULK STORAGE

CASE STUDY - K-16 Bldg CARGO CUBER LAYOUT

OPEL K-16 Bldg

BAN-AIR CARGO CUBER offers the **unique capability to reconfigure warehouse layouts** using just a forklift since the modules are not bolted to the ground.

Customer: **USAFE**
OPEL K-16 Bldg - Kaiserslautern
Requirements:
LAYOUT : x320 CARGO CUBERS (ISU90 / 463L POSITIONS)
12000lbs (12K) capacity

PROJECT // **RFQD139107**

Customer: **USAF**
OPEL K-16 Bldg - Kaiserslautern
Requirements:
LAYOUT : x320 CARGO CUBERS (ISU90 / 463L POSITIONS)
 12000lbs (12K) capacity

PROJECT // **RFQD139107**
